DS - Double Sided

NOTE - A triangle is marked on those products within a given type designation that comply with direct support of current-carrying parts performance level requirements of UL 796. "All" is used to indicate that all base materials under that type designation comply with direct support of current-carrying parts performance level requirement of UL796.

* - CTI marking is optional and may be marked on the printed wiring board.

Marking: Company name or trademark , or file number and type designation and the Recognized Component Mark for Canada,

. May be followed by a suffix to denote factory identification or burning test classification.
